

The importance of diversification

Total returns (%) for the major asset classes for financial years ending between 1993 and 2022.

The illustration below shows the performance of various asset classes over the past 30 years ranked from best to worst. When deciding where to invest, it is important investors understand that the best and worst performing asset classes will often vary from one year to the next. Having a diversified mix of investments across multiple asset classes can help smooth out returns over time.
